CALL TO ORDER
Chair Croley called the meeting to order at 4:42 p.m. and Mr. Presnell stated this was a scheduled workshop concerning Emergency Management. He also informed the Board that the Interlocal Agreement concerning Emergency Management between the Board and the Gadsden County Sheriff’s Office had been signed by the Sheriff’s Office and was on the agenda for April 16th for the Chairman’s signature.

WELCOME
Major Shawn Wood, Emergency Management Director, appeared before the Board and wanted to recognize and pay respect to all the first responders and he mentioned Mr. Curtis King, who lost his life in the line of duty during a tropical storm and said he felt it was important to recognize the sacrifice made by the first responders.

1. **Overview of the key functions of Emergency Management: Preparedness, Response, and Recovery**
Major Wood talked about the importance of everyone being safe and getting out safely during disasters and having a healthy response. He stressed the importance of having a plan in place and on paper so if one person was out, someone would be able to come in behind them and handle matters and be able to take over.

He also mentioned he just returned from the National Hurricane Conference and said he found out Florida was ahead of the game and had a good plan in place. He said there were four steps in emergency management and they were: Planning, Mitigate, Response, and Recovery.

He mentioned that Emergency Management is funded through the Federal Government and the State.

2. **Updates on the Comprehensive Emergency Management Plan and Local Mitigation Strategy**
Revisions

Major Wood said the Comprehensive Emergency Management Plan was an overall plan for what Emergency Management does and the plan developed a uniform policy and procedures consistent with the national emergency management system.

He mentioned points of distribution and said it was important so people would know where to go to be able to get supplies and things after a disaster.

Brian Bradshaw, Florida Division of Emergency Management, appeared before the Board. He mentioned that Florida Statutes Chapter 252 gave a guide to counties and cities for emergency management.

Major Wood showed a survival checklist of items suggested that would be needed by households and listed the shelters and mentioned that a pet friendly shelter was in the works.

Tashonda Whaley, Emergency Management Division Program Administrator, and Sara Hinson, Nursing Director with Gadsden County Health Department, appeared before the Board. They informed the Board that they had a Special Needs Registry and currently there were approximately 145-150 people on the registry and it was updated weekly through the home-health agencies. They explained the shelters were staffed during disasters and that a special needs shelter was located at East Gadsden High School. They informed the Board how they prepared for hurricane season.

Major Wood said East Gadsden High School, West Gadsden High School and Havana Middle School were shelters and added that through a grant, East Gadsden High School was solar-powered.

Commissioner Morgan asked about a county-wide emergency notification and thought it was still in place.

Major Wood said during a budget crisis, the notification system was cut, but notification systems were cheaper now and hoped that was something the County would entertain putting back in place.

Aaron Kissler, Administrator, Gadsden County Health Department, appeared and said during an emergency, they were able to communicate with administrators across the State to help take care of needs in this area. He stated that one section of the health department that people did not think about was environmental health. He said they provided education concerning mosquito control and disease monitoring.

Chris Rietow, Apalachee Regional Planning Council, appeared before the Board and spoke about the hazard analysis program. He said Florida was above the curve and had developed a hazard analysis program that provides funding and a report has to be filed by March 1st each year that puts together emergency contact information that responders can use in case of an emergency. He mentioned that Gadsden County had approximately 36 facilities that held hazardous materials, such as water treatment plants that held chlorine and some facilities held sulfuric acid. He said that he handled 7-9 counties in the region and he conducts visits to the facilities every two years.

Commissioner Holt asked about CSX and the hazardous materials that are transported by them on the railways.
Mr. Rietow stated that they were exempt from their program because of transportation of hazardous material, but he was in contact with them.

Major Wood pointed out that time had run out before there was a chance to talk about recovery and maybe a second part to this workshop could be scheduled for a later date. He also mentioned training that would be done in July.

3. Commissioner’s Questions and Comments

Chair Croleay complemented Major Wood on everything that had been presented and applauded him on how far emergency management had come in the county.

INTRODUCTION
Chair Croley called the meeting to order at 4:30 p.m. and asked everyone to stand for prayer and the
Pledge of Allegiance to the U. S. Flag.

OVERVIEW OF FLORIDA ENTERPRISE ZONE
Henry Grant, Enterprise Zone Coordinator appeared before the Board and explained the Workshop was
to discuss the Florida Enterprise Zone and how it related to Gadsden County. He introduced Mr. Burt C.
Von Hoff of the Department of Economic Development, Division of Community Development and Mr.
Lee Garner, Chairman of Gadsden County Enterprise Zone Development Agency. Mr. Howard McKinnon
and Mr. David Gardner were also present.

Dr. Grant explained that the Florida Enterprise Zone was enacted to provide the necessary means to
assist local communities, residents and the private sector in creating the proper economic and social
environment to induce the investment of private resources in productive business enterprises located in
severely distressed areas and to provide jobs for residents of such areas. In achieving this objective, the
state will seek to provide appropriate investments, tax benefits and regulatory relief to encourage the
business community to commit its financial participation.

Commissioner Morgan appeared at this juncture of the workshop.

Dr. Grant informed the Board that at local levels the Enterprise Zone is governed by an Enterprise Zone
Development Agency and the Enterprise Zone Development Agency also would appoint a local
Enterprise Zone Coordinator that would maintain the day-to-day operations of the Zone. He further
explained that the Coordinator was responsible for verifying the Enterprise Zone addresses, all tax
incentives, and all tax incentive applications must be certified at the local office before the application is
sent to the Department of Revenue. Dr. Grant explained that the Enterprise Zone was a designated area
within a county or municipality and the Florida Enterprise Program offers financial incentives to
businesses that invest and are located in the designated areas. The incentives are offered to encourage
private investment in the zone.

Chair Croley asked what made the enterprise zone in Gadsden County different from other enterprise
zones in other counties and Dr. Grant stated nothing, the incentives were the same all over.
Commissioner Holt appeared at this juncture of the workshop.

Dr. Burt C. Von Hoff, Department of Economic Development, Division of Community Development, appeared before the Board and explained in the urban Enterprise Zone, both the business and employee must live within the enterprise zone and in the rural enterprise zone, the business must always be in the zone, but the eligible employee may be any employee in a rural area. He added that the tax credit for the jobs' tax credit in the urban area is 20% or 30% and in the rural, it's 30% or 45%.

Dr. Grant said Gadsden County is allowed up to 3 zones, Chattahoochee, Gretna and Greensboro make up one zone, Quincy and Midway make up the second zone and Havana made up the third zone. Dr. Grant stated the tax incentives are offered to all businesses that are located in an Enterprise Zone and Enterprise Zone residents, or to purchase business equipment to be used in the Enterprise Zone.

He explained that the financial incentives that have been taken advantage of in Gadsden County have been Enterprise Zone job tax credits, building materials sales tax refunds, business equipment sales tax refunds, enterprise zone property tax credits and exemptions for licensed child care facilities that operate within the Enterprise Zone.

Commissioner Holt asked if there were a way to know how many or what businesses had submitted applications.

Dr. Grant said yes because he had to sign off on all businesses that have applied, he just would not know what had been approved by the Department of Revenue.

Commissioner Morgan asked how many businesses would the county have without an enterprise zone.

Commissioner Taylor arrived at this juncture of the meeting.

Dr. Grant stated he was not sure how many businesses there would be.

Dr. Von Hoff stated that the Enterprise Zone incentives would not override the basic need of the business.

Chair Crolely asked him to explain the role of the enterprise zone.

Commissioner Taylor stepped out at this juncture.

Commissioner Holt said she was the one that asked for this workshop and stated this needed to be marketed for the businesses in the area, possibly to be combine with tourism, economic development to use as many incentives as possible.

Chair Crolely asked who was responsible for the marketing plan.

Dr. Grant stated “We are.”

Chair Crolely asked him to explain and answer Commissioner Holt’s question/statement.
Dr. Grant stated they had asked the Board for $2500 for 4 years in a row and finally stopped asking. The money was to be used for publications and hand-outs for the public.

Commissioner Morgan stated there was a very strong marketing plan if it were implemented.

Mr. Von Hoff stated on the State level, there were 65 enterprise zones and the biggest challenge was marketing.

Commissioner Holt stated it took no money to Facebook, Twitter or use any of the other social mediad that were available to put the word out there.

Chair Crolev stated “what we need and what we are getting are two different things” and there needed to be a better game plan so things could be better funded.

Commissioner Taylor stated she agreed with what the Commissioners were saying, there were some great ideas, but what she was hearing was fragmented, they (pointing to the audience) needed direction from the Board and the Board needed to decide whether or not they wanted Gadsden Development Council to move forward as the Chamber so to speak and put everything under it.

Lee Garner appeared before the Board. He said when the Enterprise Zone started around 1999 or 2000; the County applied for a federal enterprise zone and it would have gotten the County $50 Million, but Jackson County received it and that was the difference in Jackson and Gadsden County. He commended Mr. Presnell since he had become Administrator saying he had worked with their Board and had been very involved.

Commissioner Holt said she went to Jackson County when a parent company was looking at a site and when she got there, they had a banner across Highway 90 letting everyone know they were waiting on that company and welcoming them to the area. She added that she was impressed as to how everyone was working together. She said they needed to apply for grants, etc. that could help the County.

Chair Crolev stated while nothing could be decided at this meeting; he thought there was a consensus that the Board needed Mr. Presnell to continue to work with the groups, come back to the Board with a plan of action that they could consider funding, along with funding participation from the municipalities. He added that something was needed that would be supported by the Town Councils and partner with the Board to move this forward.

Chair Crolev stated they could dwell on the problems from the past, but the focus needed to on a new day.

Mr. Presnell said this County needed a focused economic development plan and stated there were commitments from Gretna and Quincy so far.

Mr. Von Hoff added that from a State perspective, the County was not alone, and further added that they have been working for quite some time to offer a county “Community Competitive” program and
Board of County Commissioners  
Enterprise Zone Workshop/Meeting  
April 16, 2013

informed the Board that it was designed to help a county such as ours to go through a process with assessments, building sites, i.e., and was geared to be what the County was striving for.

Chair Croley added that he would like to see someone making calls to outside businesses and asking if they had ever considered relocating to our area.

AMENDMENTS AND APPROVAL OF AGENDA

UPON MOTION BY COMMISSIONER HOLT AND SECOND BY COMMISSIONER MORGAN, THE BOARD VOTED 5-0 BY VOICE VOTE TO APPROVE THE AGENDA AS PRINTED.

AWARDS, PRESENTATIONS AND APPEARANCES

1. Discussion of Proposed Comprehensive Plan and Land Development Code Text Changes to Increase Density in Agricultural Land Use Districts As Part of a Long-Term County Wide Economic Development Strategy
   Mr. Presnell introduced the above-referenced matter and explained Mr. Sewell had recommendations for the Board regarding the changes after workshops were held.

   John Sewell, Project Manager, Kimley-Horn and Associates, gave the Board an update on the proposed changes and explained their direction was to update the future land use map and create a new existing land use map and to develop some economic development strategies specifically around the interchanges. He stated part of the proposed changes would allow a greater number of units on certain AG parcels. He suggested that the Board delay any map changes until they had a chance to look into some concerns from citizens that were expressed at the meetings that were held and take another approach. He explained that one of the approaches would be instead of doing map changes, do just changes to the AG uses and said the benefit in it being done this way would be that it would exclude rural residential. He gave some ideas in possibly doing text changes and not by map change. He suggested the Board look at the new proposal that just looked at the agricultural future land use classifications, doing text changes versus map changes and that would allow better flexibility in the agricultural parcels. He added that another
suggestion they made was any parcel that was greater than 100 acres, leave it as it is today.

Marion Laslie, 5 Dante Court, Quincy, FL appeared before the Board and stated she was pleased with what she had just heard as opposed to what had been presented at the Planning and Zoning meeting and looked forward to reading the new plan and had been looking for the maps on the website and asked that they be posted for all to see.

Clay Vanlandingham, Gadsden County Property Appraiser, appeared before the Board and said he was glad to see that the current map had been corrected and he had maps to show everyone the different classifications of AG 1, 2 & 3. He added that he understood the need by many citizens to do something to allow a density higher than what it might currently be for family reasons.

Chair Croley stated this was a very complicated subject and thought it would be beneficial in having a workshop to correct the map and address the details that had been mentioned.

Commissioner Holt stated it was time for a vote and at the proper time she would make the motion to add this to the agenda.

Commissioner Morgan asked Mr. Sewell how many citizens attended the workshop and provided input.

Mr. Sewell responded there were approximately 15-20 citizens and the meeting lasted from Noon to around 7:00 p.m.

2. **Presentation on YMCA**
   Ray Purvis, CEO/President, YMCA, appeared before the Board regarding YMCA coming into the county with some of their programs and having a presence here. He stated at this point there was no firm plan but was eager to pursue the possibilities in Quincy and the surrounding communities and they represented Jefferson, Wakulla, Leon, Taylor, and Gadsden counties.

6. Approval of Commissioner Crole, Commissioner Hinson, Commissioner Morgan, Commissioner Holt and Commissioner Taylor’s Travel to the Florida Association of Counties’ 2013 Annual Conference
Commissioner Morgan pulled this item and stated he would not be able to attend the Annual Conference.

UPON MOTION BY COMMISSIONER MORGAN AND SECOND BY COMMISSIONER HOLT, THE BOARD VOTED 5-0 BY VOICE VOTE TO APPROVE THE TRAVEL AS AMENDED.

CITIZENS REQUESTING TO BE HEARD

There were no citizens requesting to speak.

PUBLIC HEARINGS

8. Public Hearing-Approval of Budget Amendment and Resolution for Hospital Office Space Construction
Mr. Presnell introduced the above item and asked Jeff Price to explain it.

Jeff Price stated this was basically housekeeping and they were doing a budget amendment and Resolution to move the money from General Funds to a Capital Account to be used for the hospital.

Chair Crole called for any public comments and there were none.

Commissioner Holt stated her concern was the loss of revenue each year in the amount of $125,000 because Medicare would not pay for the ambulance transporting from the facility here to CRMC in Tallahassee because they considered it an in-house transfer. She added that any medicines or supplies used in the ambulance were paid for by the County. She further added that the money paid to CRMC each year they are sending to the federal government for a dollar for dollar match, which they could refund to the County the $125,000 that was paid to them, but they are not willing to do so.

Commissioner Hinson stated there needed to be more information provided and that the County Administrator needed to do more research.

Chair Crole stated this was a housekeeping item from a budget standpoint and the Board had been asked to deal only with that.

Mr. Presnell commented that this item was for approval of the budget amendment only.
UPON MOTION BY COMMISSIONER MORGAN AND SECOND BY COMMISSIONER TAYLOR, BEFORE THE VOTE, COMMISSIONER HOLT CALLED FOR DISCUSSION.

The Commissioners had discussion.

THE BOARD VOTED 4-1 BY VOICE VOTE TO APPROVE OPTION ONE. COMMISSIONER HOLT OPPOSED.

GENERAL BUSINESS

9. Development of Physicians Office Space in the Hospital

Mr. Presnell introduced the above item and stated it was related to the previous item and was for build-out of the physician space located at the hospital. Mr. Presnell asked that CRMC be allowed to be construction manager of the build-out and the not-to-exceed amount would be $155,000.

Commissioner Hinson stated he did not want to make them construction manager of the project only because he would like to see this job bid out locally.

Clyde Collins appeared before the Board to address questions posed by the Board and explained to them the build-out would be under ACHA review and CRMC would be responsible for anything over the $155,000 budget.

UPON MOTION BY COMMISSIONER MORGAN AND SECOND BY COMMISSIONER TAYLOR FOR OPTION ONE, BEFORE THE VOTE WAS TAKEN, COMMISSIONER HOLT CALLED FOR DISCUSSION.

Commissioner Holt asked to bid the job out locally.

Commissioner Taylor had comments.

Commissioner Morgan asked the Board to keep in mind that the County currently has an opened facility and added this was a good decision and they were continuing to build a partnership with an HCA organization that had experience in helping this type of facility to grow.

Commissioner Holt had comments.

Chair Croley stated this motion and item was to finish out 1200 square feet by CRMC under the oversight of CRMC and was not about the history of the hospital or the financial status of the county.

Commissioner Hinson said he was not voting for this because he couldn’t tell citizens in his district they were not qualified to do the job on the build-out.

Chair Croley asked Mr. Collins to clear things up for the record that the construction would be bid out and CRMC would only be overseeing the job.

THE BOARD VOTED 2-3 BY VOICE VOTE. MOTION FAILED. COMMISSIONER HOLT, COMMISSIONER HINSON AND COMMISSIONER TAYLOR OPPOSED.
UPON MOTION BY COMMISSIONER TAYLOR AND SECOND BY COMMISSIONER HINSON, THE BOARD VOTED 4-1 BY VOICE VOTE TO ALLOW CRMC TO BE CONSTRUCTION MANAGER, REQUIRE THEM TO BID LOCALLY AND IF THAT IS AN ISSUE, TO ALLOW STAFF TO GO FORWARD WITH CONSTRUCTION TO BE TIMELY COMPLETED AND NOT TO EXCEED $155,000.

10. **Request Approval to Fund an Additional 25 Slots for the 2013 Summer Youth Employment Program**

Mr. Presnell introduced the above item and said as directed Staff had identified money and this item had been brought back for Board approval of an additional 25 slots for the Summer Youth Program.

Chair Croley said there was a citizen request to speak on this item and asked them to come forward.

**Emily Rowan, 1200 Little Sycamore Road, Quincy, FL**, appeared before the Board and stated she was upset with the opinions around the Board concerning the hospital and asked the Board to not “screw it up”. She added this County needed the hospital and the Emergency Room. She then spoke concerning the summer jobs and said she thought the County was spending too much money on this. She added, “Until this County gets up off its royal rear-end and goes to work, this County is not going to amount to anything and we’re starting with the young people. Please don’t approve any more jobs for young people, make them get them themselves”.

**Mrs. Mary Smith, 3739 Atwater Road, Chattahoochee, FL**, appeared before the Board and stated no-one could get a job in Gadsden County if there were no jobs, young or old, there was nothing here to have as a job.

**Tracy Stallworth, 770 Selman Road, Quincy, FL**, appeared before the Board and stated the youth needed a job in this county. He apologized for being so emotional but said the kids needed this chance and opportunity to make it.

Commissioner Hinson stated the youth program was needed and moved to approve the item.

Commissioner Morgan stated he appreciated Mr. Stallworth’s comments and how he faced the adversity of losing his job he found another one to provide for his family.

Commissioner Taylor had comments and stated when the youth apply for the program jobs, they have to fill out an application, meet the criteria, be interviewed and go through the same steps as if they went to a retail store.

Commissioner Holt named several businesses that had closed their doors and stated that the summer job might be the only money that would go into the household.

Commissioner Hinson had comments.

Chair Croley said he had no problem in supporting the youth, but he had a problem when Commissioners would get involved with who got the jobs and added if he saw that one person’s child got an advantage over another and the Commissioner had a hand in it, it bothered him and if
he heard of anyone bringing names to the Administrator’s office, there would be trouble.

UPON MOTION BY COMMISSIONER HINSON AND SECOND BY COMMISSIONER HOLT, THE BOARD VOTED 4-1 BY VOICE VOTE TO APPROVE. COMMISSIONER MORGAN OPPOSED.

Commissioner Taylor asked that the program be opened back up for applications to give the youth a chance to apply.

11. Approval to Refinance 2003B Revenue Bonds (Infrastructure) and Impose the One Cent Local Option Fuel Tax and Ninth Cent Motor Fuel Tax
Mr. Presnell introduced the above item and stated this item had several parts to it and it was dealing with revenue sources for Public Works. He asked for direction from the Board concerning the bond, said there were several options and one option was the ninth cent tax which would go to the County only and would generate approximately $240,000 but had to be used for Public Works. He further explained that the 1 cent Local Option Fuel Tax would be shared with the cities and would generate approximately $180,000 for the County. He alerted the Board to the fact that without additional revenue, whether it be general revenue or another source identified, the expectations of capital projects coming out of that department should be lowered.

Chair Croley asked the Assistant County Attorney about refinancing the bond and tax increases and asked if this was an item that needed a public hearing.

Mr. Presnell explained there was a process under Department of Revenue Codes and the Board was only authorizing Staff to proceed with the outlying process that was in statutes.

Chair Croley asked, with the exception of refinancing the bond, would any other action require 4 votes.

Mr. Presnell responded it would.

Antonio Jefferson, City of Gretna Manager, appeared before the Board and stated he was not opposed to what the County was attempting but wanted to share some concerns regarding the ninth cent tax. He explained that if they were ultimately to impose the tax on the residents and visitors of this county, it should be on a comprehensive basis where everybody received an advantage of what would take place. He asked that they were going to leverage the tax for them to figure out a way that they could continue to do what they want to do to take advantage of the interest savings, but also to take time to help the little guys out.

Clerk Thomas went on record to state the fuel taxes were down because gas prices had been so high and when the gas prices go down, the fuel consumption and revenue would be up. He added that increasing the taxes would only compound the problem.

Commissioner Holt said, “...So far you can’t do any projects because you have no money, and you don’t have any money, you can’t do any projects. So it’s a no-win situation.”

Commissioner Hinson had comments concerning the re-paving or resurfacing of the Lake Yvette roads.
Chair Croley asked the County Administrator if the one cent option fuel tax was shared and the ninth cent fuel tax goes to the County.

Mr. Presnell stated that was correct.

Chair Croley then stated he was in favor of refinancing the bond. He added that some of the truck stops that were the primary resource of tax revenue were having some financial problems as a result of an investigation by the Federal government and that is the major source of revenue and the County might be in a little bit of a problem if they decide to not stick around or don't stick around. He added as far as the one cent tax, the County had the majority of the roads; the County should receive the majority of the revenue.

COMMISSIONER HINSON MADE A MOTION TO HOLD OFF UNTIL THE COUNTY MANAGER GOT FIGURES TOGETHER TO BRING BACK BEFORE THE BOARD AND THEN ENTERTAIN THE PROCESS.

Chair Croley asked if Commissioner Hinson was moving for Option 4 (refinancing the bond) and he said someone else could move that motion, he was suggesting to hold off until they received the data.

Chair Croley explained if they moved for Option 4, they could refinance the bond and they would hold off on the other issues.

Commissioner Holt suggested they vote separately on the issues.

UPON MOTION BY COMMISSIONER HOLT AND SECOND BY COMMISSIONER TAYLOR, THE BOARD VOTED 5-0 TO SPLIT THE ITEMS AND VOTE SEPARATELY ON THEM.

UPON MOTION BY COMMISSIONER MORGAN AND SECOND BY COMMISSIONER HINSON, THE BOARD VOTED 5-0 TO APPROVE OPTION 4 AND REFINANCE THE BOND.

Commissioner Holt asked Mr. Presnell what his projected figures were.

Mr. Presnell responded the ninth cent was $240,000 and the local option would be $180,000.

Chair Croley stated he understood the desire to see capital improvement projects in Public Works, but he asked everyone to remember there were other funds, i.e., SCRAP, SCOP and CRTPA monies.

Chair Croley declared the item dead and asked to move to the next item.

12. Approval and Execution of the Environmental Assessment for HUD Funded Proposals. Disaster Recovery Grant #12DB-P5-02-30-01-K65

Mr. Presnell introduced the above item and stated it was a HUD project for the City of Gretna and the Board had previously approved this in 2011 and this was paperwork required to complete the project.

UPON MOTION BY COMMISSIONER HOLT AND SECOND BY COMMISSIONER MORGAN, THE BOARD VOTED 5-0 BY VOICE VOTE TO APPROVE AND AUTHORIZE THE CHAIRMAN TO EXECUTE THE PAPERWORK.
13. Approval of “Offer to Contract”-Economic Development Florida Small Cities Community Development Block Grant, Contract #:13DB-01-02-30-01-E 10 and for the Chair to Sign and Execute All Contract Documents Prior to June 11, 2013 Submittal to Department of Economic Opportunity

Mr. Presnell introduced the item and said they were at the point of approving the contract for the block grant.

*Commissioner Holt stepped out at this juncture of the meeting.*

**AUBURN FORD, 905 ROZENA LOOP, Havana, FL and CHARLIE HARRIS, 2255 Luten Road, Quincy, FL** appeared before the Board.

Anthony Matheny appeared before the Board and explained the State had made an “offer of contract” for $385,000 grant to install sewer improvements for the proposed assisted living facility.

*Commissioner Holt returned at this juncture of the meeting.*

Chair Croley asked if conditions were not met, would the County be liable for repayment of the $385,000 grant.

Mr. Matheny stated the County would not be liable; the participating party would be responsible for the entire amount after posting the appropriate surety bond for the entire amount.

Mr. Ford addressed the Board regarding comments made by Mr. Matheny and it was his opinion the surety bond was unnecessary and asked the Board to strike item 26 of the Participating Party Agreement.

Chair Croley asked to let the record show that he and Mr. Harris had a conversation days earlier at the Stones store in Havana regarding this project.

*Commissioner Holt asked Chair Croley if getting a surety bond was that difficult.*

Chair Croley responded, “it’s not really insurance, Commissioner, it’s ah, a surety bond guarantees performance and the ability to repay. It’s based on three things, it’s based on capital, character and capability, called a three-legged stool because the bible says there’s the phrase, ‘don’t give anybody surety unless you know them well’. You require a surety bond whenever you do a construction job out here to make sure that the public is indemnified if something doesn’t go right. I think there are probably avenues with Small Business Administration and others that would support Mr. Harris in this endeavor because all a surety bond, if I understood what you said, Mr. Matheny, is guaranteeing that should he default for some reason that the money being taken from the State would be indemnified back so that the County could reimburse that money. I, you know, that’s a judgment call on behalf of the commission as to whether or not they feel that that protection is warranted for the taxpayers of the County.”

*Commissioner Holt asked if this has been required in the past on USDA.*

Both Mr. Matheny and Mr. Presnell stated not as far as they knew.
Commissioner Holt stated once Mr. Harris showed he had cash on hand, was that his part?

Mr. Ford stated the cash on hand was his part, the $385,000 is the County’s part and they would get RFP’s to dig the hole to put the pipe in the ground.

Commissioner Holt said the pipe was needed whether he was there or not to be able to bring in other businesses.

Chair Croley asked Mr. Presnell for the record, the sewer line pipe on Pat Thomas Parkway is undersized for additional businesses and not large enough and wants to make sure the pipe is of adequate size.

Commissioner Holt said the engineers told them if an 8” pipe was put in, you couldn’t run a dry pipe, in order for the pumps to pump; you have to have a certain amount of volume.

Chair Croley stated if they were going to allow for additional growth in the area, he wanted to make sure that the same mistakes were not made again.

Commissioner Morgan asked how the surety bond originated.

Mr. Matheny commented that the DEO stated the surety bond would be one of the County’s options to explore to better cover them.

Commissioner Morgan suggested Mr. Harris could get the other items met, come back to the Board and give them more assurances and maybe things could move forward without requiring the surety bond.

Commissioner Morgan stepped out at this juncture.

Chair Croley asked the Clerk if he had any input concerning this item.

Mr. Thomas said he did not recall any surety requirements in the past, nor were there any problems with Mr. Ford or Mr. Harris.

Commissioner Morgan returned at this juncture of the meeting.

UPON MOTION BY COMMISSIONER HOLT AND SECOND BY COMMISSIONER TAYLOR, THE BOARD VOTED 5-0 BY VOICE VOTE TO APPROVE OPTION ONE.

She cautioned the Chair of the proper process on handling emergency items.

Chair Crolev explained that “formality is, if there is an emergency declared by another agency, which is what they did, we have to respond and it is an emergency and under the authority under the emergency management program, the Chair, whether it had been you here or anybody else, we had to meet with them to listen to what they had to say and determine the scope of the emergency. That was all that was done and it was made very clear. We are not here to administer district 4 or district 5 or any other district. That was the information provided. Mr. Presnell drafted the response up on behalf of the County. We had them sign in, complete minutes were kept for everybody’s information and that was put in the boxes I believe. I don’t really know what else you’re looking for.”

Commissioner Taylor stated anytime the Chairman signs off on a document, it needed to be at direction given by the Board for him to sign.

AWARDS, PRESENTATIONS AND APPEARANCES

1. Presentation on the Florida Property Assessed Clean Energy (PACE) Funding Agency Program
   Mr. Presnell stated the first item was a presentation of the PACE program.

   Jonathan F. Schaefer, Program Manager, Third Party Administrator for the Florida PACE Funding Agency and David Ash, Acting Regional Adversary, appeared before the Board to present the item.

   Mr. Ash explained one of the things this program would do would give people the opportunity to retro-fit their homes or businesses to be more energy efficient or to retro-fit their properties in case of a natural disaster.

   Commissioner Holt appeared at this juncture of the meeting
Gadsden County Board of County Commissioners
June 4, 2013-Regular Meeting

Mr. Schaefer gave a brief overview of the PACE program and the benefits that it provided and said the program was statutorily governed. He explained this was a local government entity that made financing available to property owners within their jurisdictional limits for installation of qualified improvements and that it was financed for property owners and was repaid through property assessments. He listed several advantages of the program available to local governments, contractors and property owners.

Commissioner Morgan asked questions regarding the program and statutory requirements and the range of interest rates.

Commissioner Holt asked that Mr. Schaefer explain the payback of the loan.

Mr. Schaefer explained by statute, mortgage lenders had a way to escrow the amount and there are no penalties for full payoff and no opportunity for partial payoff at this point.

Commissioner Taylor stated she had sat in on the presentation to the City of Quincy and asked Mr. Schaefer if all he needed was a vote of approval and then stated once that was done, the County had no control over the process and it concerned her. She added once the Board approved this, there would be no recourse.

Mr. Schaefer explained, in terms of control, before any assessments are placed, the County has the right to get out of the contract; after the first assessment is placed, the contract may be terminated at any time for cause without cost or obligation.

Mr. Presnell stated there was more information that was distributed at the meeting and thought this was a good program if used responsibly, and was an opportunity for someone to be able to put in a new air conditioner or a new roof without a lot of out-of-pocket.

Chair Croley spoke and said there had been a lot more time spent on this than planned and if the Commissioners wished to consider this further, it needed to be added to the agenda at a later date.

Mr. Schaefer asked to leave the commissioners with a couple of statements:
- The more control the County has, the more liability they have. The agency has been set up in a way to shield the county from liability.
- Please consider what other options the property owner would have, if they are a business and could not get a commercial loan, what would their other option be?

Commissioner Morgan, District 3
Commissioner Morgan asked to have the PACE program that was presented be placed on the agenda for discussion and decision. He stated he understood the potential concerns, but he thought in this county there were some folks that could benefit from the program and if that was something that was out there for an opportunity, the Board did not need to penalize those who could take advantage of it and it might help increase revenues for the County by potentially increasing property values as well.

Commissioner Morgan asked Mr. Presnell for a copy of the mowing schedule.

Commissioner Hinson, Vice Chairman
Commissioner Hinson stated he had spoken with Mr. Presnell regarding concerns he had with the advertisement for the Summer Youth Program and he had a problem with wording of advertisement.

Mr. Lawson came forward and said initially the Board had approved 50 slots and he specifically remembered the Board asked that the Administrator set criteria for selection of children for program and the same criteria was used for the second round. He went on to state if the Board chose to change the program at this stage, it might as well be scrapped for this year because there was no time to review all of the applications and start from scratch.

Commissioner Hinson spoke passionately concerning the program. For more details, please review the audio/video that can be found on the Clerk’s website at www.gadsdenclerk.com.

Agenda Request

Date of Meeting: July 2, 2013
Date Submitted: June 19, 2013
To: Honorable Chairperson and Members of the Board
From: Robert Presnell, County Administrator
Subject: Approval Of Participation In The Application Process For The FFY-2013 Edward Byrne Memorial Justice Assistance Grant (JAG)

Statement of Issue:

This agenda item seeks the Board’s approval to participate in the application process for the Federal Fiscal Year (FFY) 2013 Edward Byrne Memorial Justice Assistance Grant (JAG) and to designate a coordinator responsible for preparation of the grant application.

Background:

The Florida Department of Law Enforcement (FDLE) has notified the County that they anticipate the award of JAG funds from the United States Department of Justice. FDLE has set aside $41,238 for use by all units of government within Gadsden County. JAG funds may be used for state and local initiatives, technical assistance, training, personnel, equipment, supplies, contractual support, and information systems for criminal justice. Local units of government have the flexibility to implement projects in any of the seven federally approved purpose areas which include (1) Law Enforcement Programs, (2) Prosecution and Court Programs, (3) Prevention and Education Programs, (4) Corrections and Community Corrections Programs, (5) Drug Treatment and Enforcement Programs, (6) Planning, Evaluation and Technology Improvement Programs, and (7) Crime Victim and Witness Programs.

As a condition for participation in this program, the units of government within each county must reach a consensus concerning the expenditure of these funds. This consensus must include the project(s) to be implemented as well as the agency responsible for its implementation.

In an effort to develop such consensus, FDLE has requested that the Board of County Commissioners assume the coordinating role in the development of applications for these funds. In the event the County declines to serve in this capacity, FDLE will request the governing body of each municipality in the county, in descending order of population, to serve as the coordinating unit of government.
Analysis:

In FFY-2012 the County was awarded JAG funds from FDLE. The Gadsden County Sheriff’s Office was designated as the coordinating entity and the grant was used to fund the Gadsden County Sheriff’s Office’s Countywide Area Drug Taskforce. Specifically, the grant partially funded one Narcotics Investigator position and operating expenses for the Narcotics Taskforce Unit. Unless a different consensus is reached among the local law enforcement agencies, it is anticipated that the grant dollars will be utilized in the same manner.

The deadline to complete and submit the Certificate of Participation to FDLE is June 30, 2013. The deadline to complete the online application for the grant is July 24, 2013 at 5:00pm and the printed application (two hard copies with original signatures) must be submitted by August 2, 2013 at 5:00pm.

Fiscal Impact:

There will be no fiscal impact associated with the acceptance of this grant as there is no match requirement under the guidelines of the JAG program.

Options:

Option 1 Approve participation in the application process for the FFY-2013 Edward Byrne Memorial Justice Assistance Grant (JAG), designate the Gadsden County Sheriff as the coordinator responsible for preparation of the grant application and authorize the Chair to execute the Certificate of Participation.

Option 2 Do not approve participation in the application process for the FFY-2013 Edward Byrne Memorial Justice Assistance Grant (JAG).

Re: Federal Fiscal Year (FFY) 2013 Edward Byrne Memorial Justice Assistance Grant (JAG) Program – JAG Countywide – State Solicitation

Dear Chairman Croley:

The Florida Department of Law Enforcement (FDLE) anticipates an award from the United States Department of Justice for FFY 2013 JAG funds. FDLE will distribute these funds in accordance with the JAG Countywide distribution provisions of Chapter 11D-9, Florida Administrative Code.

FDLE has set aside $41,238 funds for use by all units of government within Gadsden County. The enclosed Program Announcement provides an overview of these funds which can be used by local units of government to support a broad range of activities to prevent and control crime and to improve the criminal justice system. Please note that the Program Announcement includes information from the U.S. Department of Justice relating several areas of national focus and its priorities to help maximize the effectiveness of the Byrne/JAG funding.

As a condition of participation in this program, the units of government in each county must reach a consensus concerning the expenditure of these funds. This consensus must include the projects to be implemented as well as the agency responsible for such implementation.

Developing such consensus will require someone to exercise leadership and assume a coordinating role in the development of applications for these funds. FDLE recommends that the Board of County Commissioners assume this responsibility. In the event the county declines to serve in this capacity, the Department will request the governing body of each municipality in the county, in descending order of population, to serve as the coordinating unit of government.
The enclosed Certificate of Participation form requests the identification of an individual coordinator. We will send this individual further information regarding the application process in FDLE’s on-line grant management system. Please complete the enclosed Certificate of Participation and return it as soon as possible to:

PROGRAM ANNOUNCEMENT
FEDERAL FISCAL YEAR 2013

Edward Byrne Memorial Justice Assistance Grant (JAG) Program
Countywide State Solicitation

The State of Florida, Department of Law Enforcement (FDLE), anticipates an award from the United States Department of Justice (USDOJ) for $7,071,683 in Justice Assistance Grant (JAG) funds. FDLE will distribute these funds in accordance with the JAG Countywide distribution provisions of Chapter 11D-9, Florida Administrative Code. This announcement is to notify eligible applicants of program requirements. Please note this Program Announcement includes information from the USDOJ relating several areas of national focus and its priorities to help maximize the effectiveness of the Byrne/JAG funding.

Eligible Applicants
Units of local government are eligible to receive subgrants from FDLE. "Units of local government" means any city, county, town, township, borough, parish, village, or other general-purpose political subdivision of a State and includes Native American Tribes that perform law enforcement functions as determined by the Secretary of the Interior.

Program Strategy and Purposes
JAG blends the previous Byrne Formula and Local Law Enforcement Block Grant (LLEBG) Programs to provide agencies with the flexibility to prioritize and to support a broad range of activities to prevent and control crime based on their own local needs and conditions. JAG funds can be used for state and local initiatives, technical assistance, training, personnel, equipment, supplies, contractual support, and information systems for criminal justice. Local units of government receiving JAG funding have the flexibility to implement projects in any of the seven federally approved purpose areas, listed below.

1) Law enforcement programs
2) Prosecution and court programs
3) Prevention and education programs
4) Corrections and community corrections programs
5) Drug treatment and enforcement programs
6) Planning, evaluation, and technology improvement programs
7) Crime victim and witness programs

Any law enforcement or justice initiative previously eligible for funding under Byrne or LLEBG is eligible for JAG funding.

Coordination Efforts
Each county is allocated a sum of money for use by all local governments within the county. This amount is determined through a funding algorithm established in the administrative rule.
Chapter 11D-9.005, Florida Administrative Code, requires that units of government in each county reach consensus concerning the expenditure of these funds, including the projects to be implemented and the agency responsible for such implementation. Maximum coordination is required to meet this program requirement, and the Department requests the county board of commissioners to serve as the coordinating unit for all local governments within the county. The Chairman, Board of County Commissioners, in each county so notified is requested to return to the Department a statement of certification indicating the county’s willingness to serve. This certification must be returned within 30 days from the date of receipt of notification. In the event the county declines to serve in this capacity, the Department will request the governing body of each municipality in the county, in descending order of population, to serve as the coordinating unit of government.

Each county or coordinating unit of government is encouraged to form a criminal justice coordinating/planning group to identify and implement criminal justice priorities for the county, to plan strategies to address those priorities, to identify areas of greatest need, and to review all possible sources of revenue to make sure that funds go to the programs or issues that need them most.

Furthermore, FDLE requires that units of government in each county reach consensus concerning the expenditure of the JAG funds, including the projects to be implemented and the agency responsible for such implementation. Each county must document this consensus by submitting letters from at least 51 percent of the units of government which also represent at least 51 percent of the population located in said county.

**Match Requirements**
There is no match requirement under the guidelines of the JAG program.

**DOJ/Bureau of Justice Assistance (BJA) Priorities**

BJA wishes to ensure that recipients are aware of several areas of national focus and priority and to encourage recipients to maximize the effective use of JAG funds. The following is a brief list of key priorities:

1) Reducing Gun Violence  
2) Recidivism Reduction and Justice System Realignment  
3) Indigent Defense  
4) Evidence-Based “Smart” Programs

Agenda Request

Date of Meeting:    July 2, 2013
Date Submitted:    June 19, 2013
To:                Honorable Chairperson and Members of the Board
From:              Robert Presnell, County Administrator
                    Aaron Kissler, GCHD Administrator
Subject:           Approval To Commit The Existing County Building And Site
                    Utilized By The Gadsden County Health Department For
                    Renovation / Construction Funding Through Possible Legislative
                    Funding

Statement of Issue:

This agenda item seeks the Board’s approval to commit the existing County building and
site utilized by the Gadsden County Health Department for renovations / construction
funding through the Florida Legislature.

Background:

Each year, local county health departments submit funding requests for capital
improvement projects to the Florida Department of Health. The Department in turn rates
these projects for submission to the Florida Legislature for possible funding
appropriations. The Gadsden County Health Department’s Administrator desires to
submit a funding request in the amount of $8 million for renovations / construction on
behalf of the local facility owned by the County.

In order to move forward with submitting the funding request, the Florida Department of
Health requires that the County enter into an agreement with their agency agreeing to
commit the County owned facility and site at 278 LaSalle LeFalle Drive in Quincy to
undergo the requested renovations / construction if funding is acquired. The renovation
and construction will be used solely for services provided by the Health Department.

Upon completion of the renovations, the County will assume all maintenance and
ownership of the facility as outlined in the core contract between the County and the
Florida Department of Health.
Analysis:

The Gadsden County Health Department Administration submitted a funding request to the Florida Department of Health for consideration during the 2012 Legislative Session. The suggested project received a rating from the Florida Department of Health which placed them in the top five recommended projects. Unfortunately, neither the House nor Senate picked up the project in their budget so funding was not successfully acquired. The Gadsden County Health Department will be submitting the same project for consideration during the 2014 Session. Prior to submitting the new request, the Florida Department of Health is requesting that the County enter into an agreement committing their support of the proposed renovation / construction project.

Fiscal Impact:

AGREEMENT BETWEEN

STATE OF FLORIDA DEPARTMENT OF HEALTH

AND

GADSDEN COUNTY, FLORIDA

This agreement ("Agreement") is made and entered into between the State of Florida, Department of Health ("Department") and Gadsden County, Florida ("County"), through their undersigned authorities, effective upon the last signature affixed hereto.

WHEREAS, the Florida Department of Health provides services to protect the health of the public living in or visiting the state of Florida Pursuant to Chapter 154, F.S., the intent of the legislature is to "promote, protect, maintain, and improve the health and safety of all citizens and visitors of this state through a system of coordinated county health department services." In accordance with the Department's Land Policy DOHP-250-5-13, as amended, the county through its Board of County commissioners shall provide the land for a new facility construction to be funded through the Florida Department of Health. Prior to and during the legislative request process for said funding the county and the Department of Health shall enter into this agreement.

THEREFORE, in consideration of the mutual promises set forth herein, the sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

A. Gadsden County owns the building site where the main county health department facility is currently located in Quincy at 278 LaSalle LaFall Drive.

B. Gadsden County agrees to commit the existing building and site for the renovation and construction funding of the Gadsden County Health Department as the Department places the project for Gadsden County on the Department prioritized Fixed Capital Outlay listing, being fully understood that in accordance with Chapter 216 F.S. legislative approval is required for any Fixed Capital Appropriation and that the Department cannot commit to a specific success of any appropriation without Legislative approval. If funding is appropriated in that period in full or in part the county agrees the site is then committed to the completion of the project funding and construction unless mutually agreed by the county and the Department.

C. Gadsden County agrees that upon completion of the renovation and construction of the Gadsden County Health Department by the Florida Department of Health and as provided for in the Gadsden County core contract, it will assume the maintenance and ownership of the facility pursuant to the provisions of Chapter 154 F.S.

D. Gadsden County agrees the Gadsden County Health Department facility renovation and addition funded by the legislature on the site will be used solely for Department of Health services and for its useful life unless otherwise authorized in writing by the Gadsden County Board of County Commissioners and the State Surgeon General.
E. Gadsden County agrees that the Gadsden County Health Department shall not pay rent for the state funded facility.

In WITNESS THEREOF, the parties hereto have caused this 2 page agreement to be executed by their undersigned officials as duly authorized effective the 1\textsuperscript{st} day of July, 2013.

Agenda Request

Date of Meeting:    July 2, 2013
Date Submitted:    June 19, 2013
To:                Honorable Chairman and Members of the Board
From:             Robert M. Presnell, County Administrator
                  Curtis P. Young, Interim Public Works Director
Subject:           Approval of Public Works Mosquito Control Budget FY 2013-2014

Statement of Issue:

Annually, the Public Works Department must apply to the Department of Agriculture and Consumer
Services (DOACS) for matching funds according to Florida Statutes, Chapter 388. Attached are
required documents for submission to the Department of Agriculture and Consumer Services after
approval by the Board of County Commissioners.

Background:

The Gadsden County Mosquito Control program is partially funded by the Department of Agriculture
and Consumer Services, State of Florida. Annually, the County must submit a Detailed Work Plan
Budget. Consumer Services reviews the documents provided, and upon their approval, the State of
Florida provides partial funding for the spraying of mosquitoes during the year.

Analysis:

Based on historical funding, the attached budget provides for the spraying of mosquitoes during the next
Fiscal Year. This includes a base salary for one employee and funding for materials required to provide
a complete mosquito control program for the entire County.

Fiscal Impact:

The County’s match for this program is $56,464.00 for the FY 2013/14. The budgetary constraints
placed on DOACS by the Legislature, has been reduced from the previous year. The estimated proposed
award for Gadsden County will be $29,456, which is an increase of last year’s contribution of $18,500.
To continue this program within the County, the difference will need to be made by the County. This is
planned for in the budgeting process and is budgeted accordingly. It has also been recommended in the
preliminary reviews of the FY 2013-14 budget.
Options:

1. Approve the Detailed Work Plan Budget as prepared.

To: Honorable Chairperson and Members of the Board
From: Robert Presnell, County Administrator
Subject: Approval of The WORKFORCE plus June 2012 and 2011 Audit and 2013-2014 Proposed Budget

Statement of Issue:

This agenda item seeks the Board’s approval of the WORKFORCE plus June 2012 and 2011 Audit and their 2013-2014 Proposed Budget.

Background:

In May 1996 the Board approved the establishment of a Jobs and Education Regional Board (Big Bend Jobs and Education Council) that would serve as the Workforce Development Consortium for the region (Gadsden, Leon and Wakulla Counties). This Consortium is comprised of one designee from each of the Board of County Commissioners. At the May 1996 meeting, an Interlocal Agreement between the County and WORKFORCE plus was also approved by the Board.

At the February 19, 2013 BOCC meeting, the Board approved a revised Interlocal Agreement between the County and WORKFORCE plus in response to the Workforce Accountability Act passed during the 2012 Legislative Session. This Act requires that each County review and approve the local workforce board budget as well as participate in the review and approval of the annual audit.

INDEPENDENT AUDITORS’ REPORT

To the Board of Directors,
Big Bend Jobs and Education Council, Inc. d/b/a Workforce Plus

We have audited the accompanying financial statements of the governmental activities and the major fund of Big Bend Jobs and Education Council, Inc. d/b/a Workforce Plus ("Workforce Plus") as of and for the year ended June 30, 2012, which collectively comprise Workforce Plus’ basic financial statements as listed in the table of contents. These financial statements are the responsibility of Workforce Plus’ management. Our responsibility is to express opinions on these financial statements based on our audit. The financial statements of Workforce Plus as of June 30, 2011, were audited by other auditors whose opinion dated November 16, 2011, on those statements was unqualified. As discussed in Note 11, Workforce Plus has restated its 2011 financial statements during the current year to appropriately recognize revenues and receivables, in conformity with accounting principles generally accepted in the United States of America. The other auditors reported on the 2011 financial statements before the restatement.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of Workforce Plus, as of June 30, 2012, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

We also audited the adjustments described in Note 11 that were applied to restate the 2011 financial statements. In our opinion, such adjustments are appropriate and have been properly applied.
In accordance with Government Auditing Standards, we have also issued our report dated October 25, 2012, on our consideration of Workforce Plus' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 3 through 5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Workforce Plus’ financial statements as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Management’s Discussion and Analysis
June 30, 2012

Management is pleased to offer the following assessment of the operations of Big Bend Jobs and

Financial Highlights

The assets of Workforce Plus exceeded its liabilities at June 30, 2012 by $329,112. Approximately 38% of
this total, or $124,328 is invested in capital assets.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to Workforce Plus’ basic financial
statements. Workforce Plus’ basic financial statements comprise three components: 1) government-wide
financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report
also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to
provide readers with a broad overview of Workforce Plus’ finances in a manner similar to a private
sector business. The government-wide financial statements consist of the Statement of Net Assets and the
Statement of Activities.

The statement of net assets presents information on all of Workforce Plus’ assets and liabilities, with the
difference between the two reported as net assets. Over time increases or decreases in net assets may
serve as a useful indicator of whether the financial position of Workforce Plus is improving or
deteriorating.

The statement of activities presents information showing how Workforce Plus’ net assets changed during
the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving
rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are
reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g.,
earned but unused vacation leave).

The basic government-wide financial statements can be found on pages 6 – 7 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control
over resources that have been segregated for specific activities or objectives. Workforce Plus uses fund
accounting to ensure and demonstrate compliance with finance-related legal requirements. Workforce
Plus maintains one fund, which is the governmental fund.
**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be used in evaluating a government’s near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The basic governmental fund financial statements can be found on pages 8 – 10 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 11 – 19 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents a Schedule of Expenditures of Federal Awards which can be found on pages 20 – 21 of this report. This schedule lists all Federal grants awarded to Workforce Plus and the related expenditures for the fiscal year ended June 30, 2012.

(1) **Summary of Significant Accounting Policies:**

The following is a summary of the more significant accounting policies and practices of Workforce Plus which affect significant elements of the accompanying financial statements:

(a) **Reporting Entity**—Big Bend Jobs & Education Council, Inc., d/b/a Workforce Plus (“Workforce Plus”) is a nonprofit corporation established to provide for enhanced coordination, cooperation, and outcomes by and between the several entities, both public and private, which are involved at the local level in providing youth and adults with opportunities to develop and continuously upgrade their knowledge and skills in order to advance economically and socially throughout their lifetime, and in providing employers with the skilled workforce necessary to be competitive in local, state, national and/or international markets. Workforce Plus was created to fulfill the duties and responsibilities provided for by the Workforce Investment Act of 1998—Title 1 and the State of Florida Workforce Innovation Act of 2000 for the Region 5 Local Workforce Investment Area which is comprised of Gadsden, Leon and Wakulla counties. The governing board of Workforce Plus consists of thirty-seven members who are appointed by state and local officials.

The accounting policies adopted by the Board conform to accounting principles generally accepted in the United States of America as applied to not-for-profit organizations reporting using the governmental model. As required by generally accepted accounting principles, the financial statements of the reporting entity include those of Workforce Plus (the primary government) and its component units. There were no entities that required inclusion as a component unit within Workforce Plus’ financial statements.

(b) **Government-wide and Fund Financial Statements**—The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of Workforce Plus. There are no component units or fiduciary funds.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the governmental fund. Workforce Plus reports one governmental fund.
(2) **Summary of Significant Accounting Policies:** (Continued)

(c) **Basis of Presentation—Governmental Fund Type**—Governmental funds are the funds through which most governmental functions typically are financed. The acquisition, use and balances of Workforce Plus' expendable financial resources and the related liabilities are accounted for through a governmental fund. The measurement focus is based upon determination of changes in working capital, rather than upon net income determination. The following is Workforce Plus' governmental fund type:

- The general fund is established to account for resources devoted to financing the general operations of Workforce Plus. All operating resources are recorded in the general fund.

(d) **Measurement Focus, Basis of Accounting and Financial Statement Presentation**—The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period in which they become both available and measurable. The basis of accounting determines when transactions and economic events are reflected in the financial statements, and measurement focus identifies which transactions and events should be recorded.

Revenues are measurable when they are subject to reasonable estimation, while the available criterion is satisfied when revenues are collectible during the period and actual collection will occur either a) during the current period or, b) after the end of the period but in time to pay current fund liabilities. Generally, Federal and state grant revenues are recorded as revenue when they are susceptible to accrual and conditions of the grant have been satisfied. Expenditures, if measurable, are recorded when they have used or are expected to use current expendable financial resources.

When both restricted and unrestricted resources are available for use, it is Workforce Plus' policy to use restricted resources first, then unrestricted resources as they are needed.

(e) **Capital Assets**—Capital assets acquired by Workforce Plus are considered to be owned by Workforce Plus. However, funding sources may maintain an equitable interest in the capital assets purchased with grant monies as well as the right to determine the use of any proceeds from the sale of these assets. The Federal Government has a reversionary interest in those assets purchased with its funds which have a cost of $5,000 or more and an estimated useful life of at least one year.
(1) **Summary of Significant Accounting Policies:** (Continued)

(c) **Capital Assets**—(Continued): Capital assets with a value greater than $1,000 and an estimated useful life of at least one year are recorded at cost when purchased or at estimated fair value when contributed. Depreciation is computed using the straight-line method over the estimated useful life of the assets, ranging from five to ten years.

(f) **Income Taxes**—Workforce Plus is generally exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code, and therefore, no provision for income taxes has been made in the accompanying financial statements.

Workforce Plus files income tax returns in the U.S. Federal jurisdiction. Workforce Plus' income tax returns for the past three years are subject to examination by tax authorities and may change upon examination.

Workforce Plus has reviewed and evaluated the relevant technical merits of each of its tax positions in accordance with accounting principles generally accepted in the United States of America for accounting for uncertainty in income taxes, and determined that there are no uncertain tax positions that would have a material impact on the financial statements of Workforce Plus.

(g) **Cash and Cash Equivalents**—Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of 90 days or less.

(h) **Use of Estimates**—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(i) **Compensated Absences**—Eligible employees accrue vacation and sick leave at varying rates based upon length of employment. The maximum amount of vacation that an employee may accumulate and be paid for is 160 hours. However, the employment contract with the Chief Executive Officer stipulates that vacation leave is paid in accordance with the employment contract. An employee with less than five years of continuous employment will not be paid for sick leave. An employee with five to ten years of continuous employment will be paid for 10% of their accumulated sick benefits at 100% of the employee's current base salary. An employee with more than ten years of continuous employment will be paid for 25% of their accumulated sick benefits at 100% of the employee's current base salary.

Vacation and sick leave are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

(j) **Grant, Contract and Other Receivables**—Grant, contract, and other receivables are stated at the amount management expects to collect from balances outstanding at year-end. Based on management's assessment of the credit history with grantors, contractors, and subrecipients having outstanding balances and current relationships with them, it has concluded that realization losses on balances outstanding at year-end will be immaterial.
(1) **Summary of Significant Accounting Policies:** (Continued)

(k) **Deferred Revenue**—Governmental funds defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the June 30, 2012 and 2011, deferred revenue from grant drawdowns made prior to meeting all eligibility requirements was $73,378 and $23,019, respectively.

(l) **Advertising**—Advertising costs are charged to operations as incurred.

(m) **Revenue Source**—Generally, revenue is received from the State of Florida, Department of Economic Opportunity and is earned on a cost reimbursement basis. See Note 3.

(n) **Expense Allocation**—Certain costs are allocated to the various grant programs of Workforce Plus based on several factors including employees’ time spent and percentage of direct program expenditures. The cost allocations are revised monthly depending on application.

(o) **Fund Balance**—Beginning with fiscal year 2011, Workforce Plus implemented GASB Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions.” This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balance more transparent. The following classifications describe the relative strength of the spending constraints:

- **Nonspendable** fund balance—includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. As of June 30, 2012 and 2011, Workforce Plus had nonspendable resources of $2,880 and $15,200, respectively.

- **Restricted** fund balance—includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Workforce Plus did not have any restricted resources as of June 30, 2012 and 2011.

- **Committed** fund balance—includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Directors. These amounts cannot be used for any other purpose unless the Board of Directors removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. Workforce Plus did not have any committed resources as of June 30, 2012 and 2011.

- **Assigned** fund balance—includes amounts that are constrained by Workforce Plus’ intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Directors or through the Board of Directors delegating this responsibility to the Chief Executive Officer through the budgetary process. As of June 30, 2012 and 2011, Workforce Plus had assigned resources of $201,346 and $185,952, respectively.
(1) **Summary of Significant Accounting Policies:** (Continued)

(o) **Fund Balance** (Continued)

Unassigned fund balance—includes amounts that have not been assigned, committed, or restricted within the General fund.

Beginning Fund balances for Workforce Plus' governmental funds have been restated to reflect the above classifications.

Workforce Plus would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

(p) **Prepaid Items**—Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

(q) **Reclassifications**—Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

(2) **Reconciliation of Government-Wide and Fund Financial Statements:**

(a) **Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities**—The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between *net change in fund balances-total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>2012</th>
<th>2011</th>
</tr>
</thead>
<tbody>
<tr>
<td>Capital outlay</td>
<td>$26,327</td>
<td>$63,155</td>

<tr>

<td>(163,964)</td>
</tr>
<tr>
<td>Net adjustment to decrease <em>net change in fund balances-total governmental funds</em> to arrive at <em>changes in net assets of governmental activities</em></td>
<td>$88,511</td>
<td>$100,809</td>
</tr>
</tbody>
</table>
(2) **Reconciliation of Government-Wide and Fund Financial Statements:** (Continued)

(a) **Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities:** (Continued)

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The detail of this difference is as follows:

<table>
<thead>
<tr>
<th></th>
<th>2012</th>
<th>2011</th>
</tr>
</thead>
<tbody>
<tr>
<td>Compensated absences</td>
<td>(17,646)</td>
<td>(9,157)</td>
</tr>
</tbody>
</table>

Another element of that reconciliation states that “The net effect of various miscellaneous transactions involving capital assets is to decrease net assets.” The detail of this difference is as follows:

<table>
<thead>
<tr>
<th></th>
<th>2012</th>
<th>2011</th>
</tr>
</thead>
<tbody>
<tr>
<td>Loss on disposal of capital assets</td>
<td>(5,990)</td>
<td>(12,658)</td>
</tr>
</tbody>
</table>

(3) **Significant Funding Source:**

Workforce Plus receives a substantial amount of its funding from the United States Department of Labor passed through the State of Florida, Department of Economic Opportunity, and from the United States Department of Health and Human Services passed through the State of Florida, Department of Economic Opportunity. A significant reduction in the level of this funding, if this were to occur, could have an adverse effect on Workforce Plus’ programs and activities.

(4) **Concentrations of Credit Risk:**

The more significant concentrations of credit risk are as follows:

(a) **Demand and Time Deposits**—Workforce Plus maintains demand deposits with several banks. Workforce Plus has no policy requiring collateral or other security to support its deposits, although accounts at each bank are insured up to Federal Deposit Insurance Corporation (“FDIC”) limits. Demand deposits of $140,000 at June 30, 2012 that are invested in the Overnight Repurchase Sweep Account are not insured nor guaranteed by the FDIC.

(b) **Grant, Contract, and Other Receivables**—Workforce Plus’ receivables are for amounts due under contracts with the State of Florida, Federal government agencies, and sub-recipient service providers. Workforce Plus has no policy requiring collateral or other security to support its receivables.
(5) **Defined Contribution Plan:**

Workforce Plus sponsors a defined contribution 401(k) profit sharing plan which covers substantially all employees. The amount of pension plan expense for the year ended June 30, 2012 and 2011 was $31,233 and $29,897, respectively.

(6) **Capital Assets:**

Capital asset activity for the year ended June 30, 2012 was as follows:

<table>

$114,838 of depreciation expense was allocated to the training program during the year ended June 30, 2012.

$163,964 of depreciation expense was allocated to the training, retraining and readjustment program during the year ended June 30, 2011.
(7) Risk Management:

Workforce Plus is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which Workforce Plus carries commercial insurance. Insurance against losses is provided for the following types of risk:

- Personal Property
- Public Officials’ Liability

Amounts of settlements, if any, have not exceeded insurance coverage for the past year.

(8) Long-term Debt:

Changes in Long-term Liabilities. Long term liability activity for the year ended June 30, 2012, was as follows:

(9) Related Party Balances and Transactions:

(10) **Contingencies:**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government and the State of Florida. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although Workforce Plus expects such amounts, if any, to be immaterial.

(11) **Prior Year Restatement:**

Subsequent to the issuance of Workforce Plus June 30, 2011 financial statements, management determined its 2011 financial statements were misstated due to an overstatement of receivables and revenue of $58,768 and an overstatement of compensated absence liabilities and expenses of $1,300. The June 30, 2011 balances have been restated, resulting in a decrease in receivables and revenues and a decrease in compensated absence liabilities and expenses.

(12) **Matching Requirements:**

Workforce Plus received a portion of its support through grants and contracts. Certain grants and contracts require Workforce Plus to provide specified amounts of matching revenue. For each contract, where applicable, the organization has met all matching requirements.

(13) **New Accounting Pronouncement:**

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements*, effective for Workforce Plus' fiscal year beginning July 1, 2011. The objective of Statement No. 61 is to improve financial reporting for a governmental financial entity. The requirements of Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of Statement No. 34, *Basic Financial Statements and Management’s Discussion and Analysis for State and Local Governments*, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements. Workforce Plus is currently evaluating the effect this Statement will have on its financial statements.

In June 2011, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, effective for Workforce Plus' fiscal year beginning July 1, 2011. The objective of Statement No. 63 is to provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources. The requirements of this Statement will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government’s net position. It alleviates uncertainty about reporting those financial statement elements by providing guidance where none previously existed. Workforce Plus is currently evaluating the effect this Statement will have on its financial statements.

INDEPENDENT AUDITORS’ REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors,
Big Bend Jobs and Education Council, Inc. d/b/a Workforce Plus:

We have audited the financial statements of the governmental activities and the major fund of Big Bend Jobs and Education Council, Inc. d/b/a Workforce Plus (“Workforce Plus”) as of and for the year ended June 30, 2012, which collectively comprise Workforce Plus’ basic financial statements and have issued our report thereon dated October 25, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Workforce Plus is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Workforce Plus’ internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Workforce Plus’ internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Workforce Plus’ internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Workforce Plus’ financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.
Compliance and Other Matters

As part of obtaining reasonable assurance about whether Workforce Plus’ financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the Board of Directors, management, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Directors,
Big Bend Jobs and Education Council, Inc. d/b/a Workforce Plus:

We have audited Big Bend Jobs and Education Council, Inc. d/b/a Workforce Plus' ("Workforce Plus") compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of Workforce Plus' major Federal programs for the year ended June 30, 2012. Workforce Plus' major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of Workforce Plus' management. Our responsibility is to express an opinion on Workforce Plus' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; the special audit guidance provided by the State of Florida, Department of Economic Opportunity; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Workforce Plus' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Workforce Plus' compliance with those requirements.

In our opinion, Workforce Plus complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2012.
Internal Control Over Compliance

Management of Workforce Plus is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered Workforce Plus' internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Workforce Plus' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Directors, others within the entity, Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Specific Grant funds from the Department of Elder Affairs for the Keeping Independent Seniors Safe Program (K.I.S.S.).

Total $5,000

Background:

Gadsden County Sheriff’s Office Keeping Independent Seniors Safe (KISS) Program is a volunteer based program, designed to ensure the safety of independent seniors residing in Gadsden County ages 60 and older; while providing them with the education and resources valuable to maintaining their well-being and independence. The mission of the K.I.S.S. program is to bestow outreach tools, educational opportunities and networking capabilities on the various hazards that face Gadsden County. The goal of the Sheriff’s Office is to make the K.I.S.S. program sustainable through utilizing and building upon the numerous programs within the county that interact with the senior population.

Analysis:

These funds will be used to enhance the Keeping Independent Seniors Safe Program. The grant will allow the Gadsden County Sheriff’s Office to increase volunteerism, promote safety/security, disaster readiness and health/wellness awareness to the senior citizens of Gadsden County.

Fiscal Impact:
The Florida Department of Elder Affairs Communities for a Lifetime Mini-Grant is a performance grant and pays $5,000.00 to the Gadsden County Sheriff’s Office Keeping Independent Seniors Safe Program for the enhancement of services. There is no match required for this grant.

VI. Program Overview: The Gadsden County Sheriff's Office Keeping Independent Seniors Safe (KISS) program is a volunteer based program, designed to ensure the safety of independent seniors residing in Gadsden County ages 60 and older; while providing them with education and resources valuable to maintaining their well-being and independence. The mission of the K.I.S.S. program is to bestow outreach tools, educational opportunities and networking capabilities on the various hazards that Gadsden County is faced with. The goal of the Sheriff's Office is to make the KISS program sustainable through utilizing and building upon the numerous programs within the county that interact with the senior population.

Documentation of Need:
Gadsden County demographic statistics for 2010 reflect 2,572 seniors age 60 and older live alone. This initiative has aided in better access to aging network resources and social interaction. Each volunteer donates an average of 45 hours per month. There are 58 volunteers in the KISS and COPs program, 57 volunteers X 45 hours per month = 2,610 total hours donated each month. 2,610 hours X $21.36 wage rate (based on Independent Sector 2010 volunteer time value @ $21.36) = $55,749.60. This is an average because the volunteer hours donated each month vary between 40-50 hours.

Target Population:
The KISS program targets Gadsden County seniors ages 60 and older who live alone. Because Gadsden County is a rural community, the isolation of seniors who live alone is a major concern. Isolation is a risk factor for all forms of elder abuse. Unwanted isolation can be a common problem for many elders, creating social losses related to death, incapacity and loneliness.
VIII. Anticipated Program Impact/Outcome Results: The Keeping Independent Seniors Safe program will continue to ensure the safety of Gadsden County’s senior population by increasing the number of volunteers, who will conduct regular wellness and security checks. The program will continue to enhance the safety of Gadsden County seniors by providing lockboxes to identified vulnerable senior participants. The lockbox project was a great success last year and as our number of participants continue to grow, it is imperative that we are able to provide this service to all in need. In emergency situations, forced entry often takes place to gain access to elderly citizens, frequently resulting in extensive damage to the residence. With the lockbox, responding law enforcement or medical personnel are able to gain instant access. Individual lockbox codes will be assigned to participants and will be logged into the Gadsden County Sheriff’s Office dispatch system, along with the participants name and address. In situations where first responders do not have access to the residence, a dispatcher will provide responders with the lockbox code. As an extension to this service, providing participant with large, reflective address numbers will allow first responders to locate homes in a timely manner, thereby immediately rendering aid to the victim. Participants will also receive an individual decal indicating that their home is under extra protection of the Gadsden County Sheriff’s Office Keeping Independent Seniors Safe Program.

The period of this grant falls within the state’s hurricane preparedness season and is a great opportunity for The Keeping Independent Seniors Safe Program in collaboration with the Gadsden County Division of Emergency Management to conduct disaster preparedness workshops within the community. These workshops will enable seniors to learn the roles of their county and state officials, in a weather emergency and what those officials are doing on their behalf as it relates to preparedness and response. Participants will also be educated of their responsibility for personal safety during a weather emergency. During the workshops seniors will receive weather radios that will keep them abreast of local weather conditions, including warning and hazards. The weather radios will be battery operated, allowing seniors to receive alerts during power outages. Obtaining immediate weather alerts offer an extra sense of security during severe weather conditions. In conjunction, health and wellness awareness will be provided during the workshops in effort to empower seniors to become more health conscious, physically active, thus promoting and increasing healthier life styles.

IX. Program Sustainability: The Keeping Independent Seniors Safe Program has operated unfunded for 3 years with the assistance the Gadsden County Sheriff’s Office and through donations and in-kind services from various organizations; including Gadsden County Health Department, Gadsden EMS, Department of Elder Affairs Communities for A Lifetime, Quincy and Havana Florida Kiwanis Clubs and local faith-based and business. The program will sustain through these services once the grant funds have been exhausted.
**Outreach Methods and Strategies:** The KISS program reaches the targeted population by utilizing the Special Needs Registry maintain in-house at the Gadsden County Sheriff's Office; through law enforcement observation when patrolling the community; through faith-based and civic organizations; and maintaining a partnership with the Gadsden County Senior Services.

**Collaboration:** Collaborative partners of the KISS program include:

- Gadsden County Health Department
- Gadsden County Fire Departments
- Gadsden County EMS
- Gadsden County Senior Services
- Gadsden County Retired Educators
- Gadsden County Veteran Affairs
- Florida Department of Elder Affairs
- Volunteer Florida
- Area Agency on Aging

**VII. Budget Request:** Please provide a budget worksheet/table reflecting how these funds will be used to support your program goals. Be sure to describe donations, fund-raisers, volunteer contributions and other in-kind support in your request. Board of County Commissioners
Agenda Request

Date of Meeting: July 2, 2013
Date Submitted: June 20, 2013
To: Honorable Chairperson and Members of the Board
From: Robert Presnell, County Administrator
       Curtis Young, Interim Public Works Director
Subject: Privatization of Mowing Services Pilot Project-District 5.

Statement of Issue:
This agenda item seeks Board of County Commissioners (Board) approval to bid out privatized mowing services for the required right of way maintenance for District 5.

Background:
In 2011 and 2012, County staff attempted to bid out the mowing services for Gadsden County right of way maintenance. Both times, the price comparison and bid analysis for the entire County to have privatized mowing proved cost prohibitive compared to the current expenses in house.

This effort will allow the County to evaluate if privatizing mowing services will result in an increased level of satisfaction and cost savings in capital expenses over time.

Analysis:
County staff proposes bidding out the roads by acre in District 5 because the roadways are straightforward and easily addressed with a variety of equipment. The analysis of the performance of the potential contractor will be easy to conduct on these roadways.

Fiscal Impact:
Unknown at this time; no bids have been received.

Options:

Option 1: Approve staff to bid out mowing services for District 5 as a pilot privatized mowing program.
Option 2: Board direction

(i) If the audit shows that all or any portion of the funds disbursed were not spent in accordance with the conditions of this Agreement, the Recipient shall be held liable for reimbursement to the Division of all funds not spent in accordance with these applicable regulations and Agreement provisions within thirty days after the Division has notified the Recipient of such non-compliance.

(e) The Recipient shall provide additional program updates or information that may be required by the Division.

The Recipient further agrees to comply and cooperate with any inspections, reviews, investigations or audits deemed necessary by the Florida Chief Financial Officer or Auditor General. In addition, the Division will monitor the performance and financial management by the Recipient throughout the contract term to ensure timely completion of all tasks.

(9) LIABILITY

(a) Unless Recipient is a State agency or subdivision, as defined in Section 768.28, Fla. Stat., the Recipient is solely responsible to parties it deals with in carrying out the terms of this Agreement, and shall hold the Division harmless against all claims of whatever nature by third parties arising from the work performance under this Agreement. For purposes of this Agreement, Recipient agrees that it is not an employee or agent of the Division, but is an independent contractor.

(b) Any Recipient which is a state agency or subdivision, as defined in Section 768.28, Fla. Stat., agrees to be fully responsible for its negligent or tortious acts or omissions which result in claims or suits against the Division, and agrees to be liable for any damages proximately caused by the acts or omissions to the extent set forth in Section 768.28, Fla. Stat. Nothing herein is intended to serve as a waiver of sovereign immunity by any Recipient to which sovereign immunity applies. Nothing herein shall be construed as consent by a state agency or subdivision of the State of Florida to be sued by third parties in any matter arising out of any contract.

(10) DEFAULT.

If any of the following events occur ("Events of Default"), all obligations on the part of the Division to make further payment of funds shall, if the Division elects, terminate and the Division has the option to exercise any of its remedies set forth in Paragraph (11). However, the Division may make payments or partial payments after any Events of Default without waiving the right to exercise such remedies, and without becoming liable to make any further payment:

(a) If any warranty or representation made by the Recipient in this Agreement or any previous agreement with the Division is or becomes false or misleading in any respect, or if the Recipient fails to keep or perform any of the obligations, terms or conditions in this Agreement or any previous agreement with the Division and has not cured them in timely fashion, or is unable or unwilling to meet its obligations under this Agreement;

(b) If material adverse changes occur in the financial condition of the Recipient at any time during the term of this Agreement and the Recipient fails to cure this adverse change within thirty days from the date written notice is sent by the Division.
(c) If any reports required by this Agreement have not been submitted to the Division or have been submitted with incorrect, incomplete or insufficient information;

(d) If the Recipient has failed to perform and complete on time any of its obligations under this Agreement.

(11) REMEDIES.

If an Event of Default occurs, then the Division may, after thirty calendar days written notice to the Recipient and upon the Recipient's failure to cure within those thirty days, exercise any one or more of the following remedies, either concurrently or consecutively:

(a) Terminate this Agreement, provided that the Recipient is given at least thirty days prior written notice of the termination. The notice shall be effective when placed in the United States, first class mail, postage prepaid, by registered or certified mail-return receipt requested, to the address in paragraph (13) herein;

(b) Begin an appropriate legal or equitable action to enforce performance of this Agreement;

(c) Withhold or suspend payment of all or any part of a request for payment;

(d) Require that the Recipient refund to the Division any monies used for ineligible purposes under the laws, rules and regulations governing the use of these funds.

(e) Exercise any corrective or remedial actions, to include but not be limited to:

1. Request additional information from the Recipient to determine the reasons for or the extent of non-compliance or lack of performance,

2. Issue a written warning to advise that more serious measures may be taken if the situation is not corrected,

3. Advise the Recipient to suspend, discontinue or refrain from incurring costs for any activities in question or

4. Require the Recipient to reimburse the Division for the amount of costs incurred for any items determined to be ineligible;

(f) Exercise any other rights or remedies which may be available under law.

(g) Pursuing any of the above remedies will not stop the Division from pursuing any other remedies in this Agreement or provided at law or in equity. If the Division waives any right or remedy in this Agreement or fails to insist on strict performance by the Recipient, it will not affect, extend or waive any other right or remedy of the Division, or affect the later exercise of the same right or remedy by the Division for any other default by the Recipient.

(12) TERMINATION.

(a) The Division may terminate this Agreement for cause after thirty days written notice. Cause can include misuse of funds, fraud, lack of compliance with applicable rules, laws and regulations, failure to perform on time, and refusal by the Recipient to permit public access to any document, paper, letter, or other material subject to disclosure under Chapter 119, Fla. Stat., as amended.
(b) The Division may terminate this Agreement for convenience or when it determines, in its sole discretion that continuing the Agreement would not produce beneficial results in line with the further expenditure of funds, by providing the Recipient with thirty calendar day’s prior written notice.

(c) The parties may agree to terminate this Agreement for their mutual convenience through a written amendment of this Agreement. The amendment will state the effective date of the termination and the procedures for proper closeout of the Agreement.

(d) In the event that this Agreement is terminated, the Recipient will not incur new obligations for the terminated portion of the Agreement after the Recipient has received the notification of termination. The Recipient will cancel as many outstanding obligations as possible. Costs incurred after receipt of the termination notice will be disallowed. The Recipient shall not be relieved of liability to the Division because of any breach of Agreement by the Recipient. The Division may, to the extent authorized by law, withhold payments to the Recipient for the purpose of set-off until the exact amount of damages due the Division from the Recipient is determined.

For a federally funded contract, any advance payment is also subject to federal OMB Circulars A-87, A-110, A-122 and the Cash Management Improvement Act of 1990. - **Funds Used to Design, Develop, Conduct, and Evaluate an Exercise** – Includes costs related to planning, meeting
  space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation. Grantees are
  encouraged to use government or free public space/locations/facilities, whenever available, prior to the rental of
  space/locations/facilities. Exercises should provide the opportunity to demonstrate and validate skills learned, as well
  as to identify any gaps in these skills. Any exercise or exercise gaps, including those for children and individuals
  with disabilities or access and functional needs, should be identified in the AAR/IP and addressed in the exercise
cycle.

- **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Full or part-time staff may be hired to support
  exercise-related activities. Such costs must be included within the funding allowed for program management
  personnel expenses.

- The applicant’s formal written procurement policy or 44 CFR 13.36 – whichever is more stringent – must be
  followed.

- **Overtime and Backfill** – The entire amount of overtime costs, including payments related to backfilling personnel,
  which are the direct result of time spent on the design, development, and conduct of exercises are allowable expenses.
  These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State
  or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In
  no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation
from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.

- **Travel** – Travel costs are allowable as expenses by employees who are on travel status for official business related to the planning and conduct of exercise project(s) or HSEEP programmatic requirements as described in the HSEEP website (e.g., Improvement Plan Workshops, Training and Exercise Plan).

- **Supplies** – Supplies are items that are expended or consumed during the course of the planning and conduct of the exercise project(s) (e.g., copying paper, gloves, tape, non-sterile masks, and disposable protective equipment).

- **Disability Accommodations** – Materials, services, tools and equipment for exercising inclusive of people with disabilities (physical, programmatic and communications access for people with physical sensory, mental health, intellectual and cognitive disabilities).

- **Other Items** – These costs include the rental of equipment and other expenses used specifically for exercises, costs associated with inclusive practices and the provision of reasonable accommodations and modifications to provide full access for children and adults with disabilities.

**Unauthorized exercise-related costs include:**

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) medical supplies, and emergency response apparatus (e.g., fire trucks, ambulances).
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).
- The purchase of food is not permissible under this grant, subject to prior approval of the Department of Financial Services, explicitly authorized by 2 CFR, Part 225, Appendix B. While this is an allowable purchase by DHS, please note that FDDEM adheres to Florida Statutes, which are more stringent than federal guidance. Such expenditures are restricted to the rates specified for Class C meals in Section 112.061, Florida Statutes.

**Exercise Requirements**

*Training and Exercise Plan Workshop.* States and Urban Areas are required to conduct an annual Training and Exercise Plan Workshop (TEPW). A Multi-year Training and Exercise Plan must be developed from the workshops on an annual basis and submitted to the States respective Exercise Program point of contact. The State Exercise Program point of contact should submit a copy of the State and Urban Area plans to hseepl@dhs.gov.

The Training and Exercise Plan will include the State’s prioritized capability requirements and a Multi-Year Training and Exercise Plan (schedule) that supports the identified capabilities. In addition to submission of the Multi-Year Training and Exercise Plan to hseepl@dhs.gov, all scheduled training and exercises should be entered into the HSEEP National Exercise Scheduling (NEXUS) System, located in the HSEEP Toolkit on the HSEEP website https://hseepl.dhs.gov.

States must complete a cycle of exercise activities during the period of this grant. Exercises conducted by States and Urban Areas may be used to fulfill similar exercise requirements required by other grants programs. To this end, grantees are encouraged to invite representatives/planners involved with other federally-mandated or private exercise activities. States and Urban areas are encouraged to share, at a minimum, the multi-year training and exercises schedule with those departments, agencies, and organizations included in the plan.

- **Exercise Scenarios.** The scenarios used in HSGSP-funded exercises must be based on the State/Urban Area’s Homeland Security Strategy and plans. Acceptable scenarios for SHSP and UAIS exercises include: chemical, biological, radiological, nuclear, explosive, cyber, agricultural and natural or technological disasters.

  The scenarios used in HSGSP-funded exercises must focus on validating existing capabilities and must be large enough in scope and size to exercise multiple tasks and warrant involvement from multiple jurisdictions and disciplines and nongovernmental organizations and take into account the needs and requirements for individuals with disabilities. Exercise scenarios should align with objectives and capabilities identified in the Multiyear Training and Exercise Plan.

- **Special Event Planning.** If a State or Urban Area will be hosting a special event (e.g., Super Bowl, G-8 Summit) the special event planning should be considered as a training or exercise activity for the purpose of the Multi-year Training and Exercise Plan. The State or Urban Area should plan to use SHSP or UAIS funding to finance training and exercise activities in preparation for those events. States and Urban Areas should also consider exercises at major venues (e.g., arenas, convention centers) that focus on evacuations, communications, and command and control. States should also anticipate participating in at least one Regional Exercise annually. States must include all confirmed or planned special events in the Multi-year Training and Exercise Plan.
• **Exercise Evaluation and Improvement.** Exercises should evaluate performance of the objectives and capabilities required to respond to the exercise scenario. Guidance related to exercise evaluation and improvement planning is defined in the HSEEP located at https://hseep.dhs.gov.

• **Self-sustaining Exercise Programs.** States are expected to develop a self-sustaining exercise program. A self-sustaining exercise program is one that is successfully able to implement, maintain, and oversee the Multi-Year Training and Exercise Plan, including the development and delivery of HSGP-funded exercises. The program must utilize a multi-disciplinary approach to the development and delivery of exercises, and build upon existing plans, training, and equipment.

• **Role of Non-Governmental Entities in Exercises.** Non-governmental participation in all levels of exercises is strongly encouraged. Leaders from nongovernmental entities should be included in the planning, conduct, and evaluation of an exercise. State, local, tribal, and territorial jurisdictions are encouraged to develop exercises that test the integration and use of non-governmental resources provided by non-governmental entities, defined as the private sector and private non-profit, faith-based, community, volunteer, and other non-governmental organizations. Non-governmental participation in exercises should be coordinated with the local Citizen Corps Council(s) or their equivalent and other partner agencies. The scenarios used in HSGP-funded exercises must focus on validating existing capabilities, must comply with and be large enough in scope and size to exercise multiple activities and warrant involvement from multiple jurisdictions and disciplines and non-governmental organizations, and take into account the needs and requirements for individuals with disabilities.

D. **Management and Administration** - no more than 3% of each sub-recipient’s total award may be expended on Management and Administration costs.

**Hiring of full-time or part-time staff or contractors/consultants:**
- To assist with the management of the respective grant program
- To assist with application requirements
- To assist with the compliance with reporting and data collection requirements

**Development of operating plans for information collection and processing necessary to respond to FEMA data calls**

**Overtime costs** - Overtime are allowable for personnel to participate in information, investigative, and intelligence sharing activities specifically related to homeland security and specifically requested by a Federal agency. Allowable costs are limited to overtime associated with federally requested participation in eligible fusion activities including anti-terrorism task forces, Joint Terrorism Task Forces (JTTFs), Area Maritime Security Committees (as required by Maritime Transportation Security Act of 2002), DHS Border Enforcement Security Task Forces, and Integrated Border Enforcement Teams. Grant funding can only be used in proportion to the Federal man-hour estimate, and only after funding for these activities from other Federal sources (i.e. FBI JTTF payments to State and local agencies) has been exhausted. Under no circumstances should DHS grant funding be used to pay for costs already supported by funding from another Federal source.

**Operational overtime costs.** In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism, operational overtime costs are allowable for increased security measures at critical infrastructure sites. FY 2012 SHSP or IASI funds for organizational costs may be used to support select operational expenses associated with increased security measures at critical infrastructures sites in the following authorized categories:
- Backfill and overtime expenses (as defined in FOA) for staffing State or Major Urban Area fusion centers;
- Hiring of contracted security for critical infrastructure sites;
- Public safety overtime (as defined in FOA);
- Title 21 or State Active Duty National Guard deployments to protect critical infrastructure sites, including all resources that are part of the standard National Guard deployment package; and
- Increased border security activities in coordination with CBP, as outlined in Information Bulletin 135.

FY 2012 SHSP funds may only be spent for operational overtime costs upon prior approval provided in writing by the FEMA Administrator.

**Travel expenses**

**Meeting-related expenses** (For a complete list of allowable meeting-related expenses, please review the OJP Financial Guide at http://www.ojp.usdoj.gov/FinGuide).

**Acquisition of authorized office equipment, including:**
- Personal computers
- Laptop computers
- Printers
- LCD projectors, and
• Other equipment or software which may be required to support the implementation of the homeland security strategy

The following are allowable only within the period of performance of the contract:
• Recurring fees/charges associated with certain equipment, such as cell phones, faxes, etc.
• Leasing and/or renting of space for newly hired personnel during the period of performance of the grant program

E. Unauthorized Expenditures
• Activities unrelated to the completion and implementation of the grant program
• Other items not in accordance with the Authorized Equipment List or previously listed as allowable costs
• Funding may not be used to supplant ongoing, routine public safety activities of state and local emergency responders, and may not be used to hire staff for operational activities or backfill. Funds cannot not replace (supplant) funds that have been appropriated for the same purpose.

F. Construction and Renovation
Project construction using SHSP and UASI funds may not exceed the greater of $1,000,000 or 15% of the grant award. For the purposes of the limitations on funding levels, communications towers are not considered construction.

Written approval must be provided by FEMA prior to the use of any HSGP funds for construction or renovation. When applying for construction funds, including communications towers, at the time of application, grantees are highly encouraged to submit evidence of approved zoning ordinances, architectural plans, any other locally required planning permits and documents, and to have completed as many steps as possible for a successful EHP review in support of their proposal for funding (e.g., completing the FCC’s Section 06 review process for tower construction projects; coordination with their State Historic Preservation Office to identify potential historic preservation issues and to discuss the potential for project effects). Projects for which the grantee believes and Environmental Assessment (EA) may be needed, as defined in 44 CFR 10.8 and 10.9, must also be identified to the FEMA Program Analyst within six (6) months of the award and completed EHP review packets must be submitted no later than 12 months before the end of the Period of Performance. EHP review packets should be sent by the SAA to FEMA for review.

FEMA is legally required to consider the potential impacts of all HSGP projects on environmental resources and historic properties. Grantees must comply with all applicable environmental planning and historic preservation (EHP) laws, regulations, and Executive Orders (EOs) in order to draw down their FY 2012 HSGP grant funds. To avoid unnecessary delays in starting a project, grantees are encouraged to pay close attention to the reporting requirements for an EHP review. For more information on FEMA’s EHP requirements please refer to Bulletins 329 and 345 (http://www.fema.gov/government/grant/bulletins/index.shtm).

FY 2012 HSGP Program grantees using funds for construction projects must comply with the Davis-Bacon Act (40 U.S.C. 3141 et seq.). Grant recipients must ensure that their contractors or subcontractors for construction projects pay workers employed directly at the worksite no less than the prevailing wages and fringe benefits paid on projects of a similar character. Additional information, including Department of Labor wage determinations, is available from the following website: http://www.dol.gov/compliance/laws/comp-dbra.htm.

In addition, the erection of communications towers that are included in a jurisdiction’s interoperable communications plan is allowed, subject to all applicable laws, regulations, and licensing provisions. Communication tower projects must be submitted to FEMA for EHP review. Per the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act of 2009 (Public Law 110-329), communications towers are not subject to the $1,000,000 construction and renovation cap.

Approval Process:
In order for grantees to drawdown funds for construction and renovation costs, the grantee must provide the Division with:

• A description of the asset or facility, asset location, whether the infrastructure is publicly or privately owned, and the construction or renovation project;
• Certification that a facility vulnerability assessment has been conducted
• An outline addressing how the construction or renovation project will address the identified vulnerabilities from the assessment
• Consequences of not implementing the construction or renovation project
• Any additional information requested by FEMA to ensure compliance with Federal environmental and historic preservation requirements

Additional information may also be found on the FEMA’s website located at http://www.fema.gov/plar/chp.

Note: Written approval must be provided by FEMA prior to the use of any funds for construction or renovation.

G. Overtime and Backfill Guidance

Personnel (SHSP and UASI) – Personnel hiring, overtime, and backfill expenses are permitted under this grant in order to perform allowable FY 2012 HSGP planning, training, exercise, and equipment activities. A personnel cost cap of up to 50
percent (50%) of the total SFISP and UASI program funds may be used for personnel and personnel-related activities as directed by the Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act (Public Law 110-412). Grantees who wish to seek a waiver from the personnel cost cap must provide documentation explaining why the cap should be waived; waiver requests will be considered only under extreme circumstances. In general, the use of SFISP and UASI funding to pay for staff and/or contractor regular time or overtime/backfill is considered a personnel cost.

For further details, please refer to Information Bulletin 388.

FY 2012 HSGP funds may not be used to support the hiring of any personnel for the purposes of fulfilling traditional public health and safety duties or to supplant traditional public health and safety positions and responsibilities.

Definitions for hiring, overtime, and backfill-related overtime, and supplanting remain unchanged from FY 2011 HSGP.

H. National Incident Management System (NIMS) Compliance

HSPD-5, "Management of Domestic Incidents," mandated the creation of NIMS and the National Response Plan (NRP). NIMS provides a consistent framework for entities at all jurisdictional levels to work together to manage domestic incidents, regardless of cause, size, or complexity. To promote interoperability and compatibility among Federal, State, local, and tribal capabilities, NIMS includes a core set of guidelines, standards, and protocols for command and management, preparedness, resource management, communications and information management, supporting technologies, and management and maintenance of NIMS. The NRP, using the template established by NIMS, is an all-discipline, all-hazards plan that provides the structure and mechanisms to coordinate operations for evolving or potential Incidents of National Significance, which are major events that "require a coordinated and effective response by an appropriate combination of Federal, State, local, tribal, private sector, and nongovernmental entities."

The NIMS Integration Center (NIC) recommends 38 NIMS Compliance Objectives for nongovernmental organizations that support NIMS implementation. These activities closely parallel the implementation activities that have been required of State, territorial, tribal, and local governments since 2004 and can be found at www.fema.gov/pdf/emergency/nims/ngo_fs.pdf. To integrate nonprofit organizations into the broader national preparedness effort, DHS encourages grantees to consider pursuing these recommended activities.

Additionally, nongovernmental organizations grantees and sub-grantees will be required to meet certain NIMS compliance requirements. This includes all emergency preparedness, response, and/or security personnel in the organization participating in the development, implementation, and/or operation of resources and/or activities awarded through this grant must complete training programs consistent with the NIMS National Standard Curriculum Development Guide. Minimum training includes IS-700 NIMS: An Introduction. In addition, IS-800.n NRP: An Introduction, Incident Command System (ICS-100), Incident Command System (ICS-200), Intermediate Incident Command System (G-300), and Advanced Incident Command System (G-400) are also recommended. For additional guidance on NIMS training, please refer to http://www.fema.gov/emergency/nims/nims_training.shtml.

Additional information about NIMS implementation and resources for achieving compliance are available through the NIMS Integration Center (NIC), at http://www.fema.gov/emergency/nims/.

III. Reporting Requirements

1. Quarterly Programmatic Reporting:
The Quarterly Programmatic Report is due within 30 days after the end of the reporting periods (March 30, June 30, September 30 and December 30) for the life of this contract.

   • If a report(s) is delinquent, future financial reimbursements will be withheld until the Recipient’s reporting is current.

   • If a report goes 2 consecutive quarters without Recipient providing information in the narrative portion of the Quarterly Status Report, Report will be denied until narrative is provided, and financial reimbursements will be withheld until the required information has been submitted.

2. Programmatic Reporting-BSIR
Biannual Strategic Implementation Report:
After the end of each reporting period, for the life of the contract unless directed otherwise, the SAA will complete the Biannual Strategic Implementation Report in the Grants Reporting Tool (GRT) https://www.reporting.odp.dhs.gov. Future awards and reimbursement may be withheld if these reports are delinquent.

3. Reimbursement Requests:
A request for reimbursement may be sent to your grant manager for review and approval at anytime during the contract period. The Recipient should include the category’s corresponding line item number in the “Detail of Claims” form. This number can be found in the “Proposed Program Budget”. A line item number is to be included for every dollar amount listed in the “Detail of Claims” form.

4. Close-out Programmatic Reporting:
The Close-out Report is due to the Florida Division of Emergency Management no later than 60 calendar days after the agreement is either completed or the agreement has expired.

5. Monitoring:

Florida Division of Emergency Management
US Department of Homeland Security Grants Program
Grant Monitoring Process

Florida has enhanced state and local capability and capacity to prevent, prepare and respond to terrorist threats since 1999 through various funding sources including federal grant funds. The Florida Division of Emergency Management (FDEM) has a responsibility to track and monitor the status of grant activity and items purchased to ensure compliance with applicable SISGP grant guidance and statutory regulations. The monitoring process is designed to assess a recipient agency’s compliance with applicable state and federal guidelines.

Monitoring is accomplished utilizing various methods including desk monitoring and on-site visits. There are two primary areas reviewed during monitoring activities - financial and programmatic monitoring. Financial monitoring is the review of records associated with the purchase and disposition of property, projects and contracts. Programmatic monitoring is the observation of equipment purchased, protocols and other associated records. Various levels of financial and programmatic review may be accomplished during this process.

Desk monitoring is the review of projects, financial activity and technical assistance between FDEM and the applicant via e-mail and telephone. On-Site Monitoring are actual visits to the recipient agencies by a Division representative who examines records, procedures and equipment.

Frequency of annual monitoring activity:
Each year the FDEM will conduct monitoring for up to 50% of their sub-grantees. It is important to note that although a given grant has been closed, it is still subject to either desk or on-site monitoring for a five year period following closure.

Areas that will be examined include:
Management and administrative procedures;
Grant folder maintenance;
Equipment accountability and sub-hand receipt procedures;
Program for obsolescence;
Status of equipment purchases;
Status of training for purchased equipment;
Status and number of response trainings conducted to include number trained;
Status and number of exercises;
Status of planning activity;
Anticipated projected completion;
Difficulties encountered in completing projects;
Agency NMS/ICS compliance documentation;
Equal Employment Opportunity (EEO Status);
Procurement Policy

FDEM may request additional monitoring/information if the activity, or lack thereof, generates questions from the region, the sponsoring agency or FDEM leadership. The method of gathering this information will be determined on a case-by-case basis.

Desk monitoring is an on-going process. Recipients will be required to participate in desk top monitoring on an annual basis and as determined by the FDEM. This contact will provide an opportunity to identify the need for technical assistance (TA) and/or a site visit if the FDEM determines that a recipient is having difficulty completing their project.

As difficulties/deficiencies are identified, the respective region or sponsoring agency will be notified by the program office via email. Information will include the grant recipient agency name, year and project description and the nature of the issue in question. Many of the issues that arise may be resolved at the regional or sponsoring agency level. Issues that require further TA will be referred to the FDEM for assistance. Examples of TA include but are not limited to:

- Equipment selection or available vendors
- Eligibility of items or services
- Coordination and partnership with other agencies within or outside the region or discipline
- Record Keeping
- Reporting Requirements
- Documentation in support of a Request for Reimbursement

On-Site Monitoring will be conducted by the FDEM or designated personnel. On-site Monitoring visits will be scheduled in advance with the recipient agency POC designated in the grant agreement.

The FDEM will also conduct coordinated financial and grant file monitoring. These monitoring visits will be coordinated with the capability review visits. Subject matter experts from other agencies within the region or state may be called upon to assist in the form of a peer review as needed.

All findings related to the capability review will be documented and maintained within the FDEM.

On-site Monitoring Protocol
On-site Monitoring Visits will begin with those grantees that are currently spending or have completed spending for that federal fiscal year (FFY). Site visits may be combined when geographically convenient. There is a financial and programmatic on-site monitoring checklist to assist in the completion of all required tasks.

Site Visit Preparation
A letter will be sent to the recipient agency Point of Contact (POC) outlining the date, time and purpose of the site visit before the planned arrival date.

The appointment should be confirmed with the grantee in writing (email is acceptable) and documented in the grantee folder.
The physical location of any equipment located at an alternate site should be confirmed with a representative from that location and the address should be documented in the grantee folder before the site visit.

**On-Site Monitoring Visit**

Once FDEM personnel have arrived at the site, an orientation conference will be conducted. During this time, the purpose of the site visit and the items FDEM intends to examine will be identified. If financial monitoring visit will be conducted, they will then explain their objectives and will proceed to perform the financial review.

FDEM personnel will review all files and supporting documentation. Once the supporting documentation has been reviewed, a tour/visual/spot inspection of equipment will be conducted.

Each item should be visually inspected whenever possible. Bigger items (computers, response vehicles, etc.) should have an asset decal (information/serial number) placed in a prominent location on each piece of equipment as per recipient agency requirements. The serial number should correspond with the appropriate receipt to confirm purchase. Photographs should be taken of the equipment (large capitol expenditures in excess of $1,000 per item).

If an item is not available (being used during time of the site visit), the appropriate documentation must be provided to account for that particular piece of equipment. Once the tour/visual/spot inspection of equipment has been completed, the FDEM personnel will then conduct an exit conference with the grantee to review the findings.

Other programmatic issues can be discussed at this time, such as missing quarterly reports, payment voucher/reimbursement, equipment, questions, etc.

**Post Monitoring Visit**

FDEM personnel will review the on-site monitoring review worksheets and backup documentation as a team and discuss the events of the on-site monitoring.

Within 30 calendar days of the site visit, a monitoring report will be generated and sent to the grantee explaining any issues and corrective actions required or recommendations. Should no issues or findings be identified, a monitoring report to that effect will be generated and sent to the grantee. The grantee will submit a Corrective Action Plan within a timeframe as determined by the FDEM. Noncompliance on behalf of sub-grantees is resolved by management under the terms of the Sub grant Agreement.

The On-Site Monitoring Worksheets, the monitoring report and all back up documentation will then be included in the grantee’s file.

The recipient shall submit the Financial Report (FDEM Form 1 & 2) within 30 days of the end of the first Federal quarter covering the grant period of performance. The recipient shall submit quarterly reports thereafter until the grant ends and final payment is received. Reports are due on January 31, April 30, July 31 and October 30. A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future reimbursement requests may be withheld if these reports are delinquent. The Close-Out Report (FDEM Form 5) is due within sixty (60) days after the end date of the performance period.

Article III – Summary Description of Project

The FY 2011 Homeland Security Grant Program (HSGP) funding shall be used for costs related to preparedness activities associated with implementing the State Homeland Security Strategy, any respective Urban Area Security Strategies, and the investments identified during the application period. The HSGP consists of the State Homeland Security Program (SHSP), the Urban Area Security Initiative (UASI), the Citizen Corps Program (CCP), the Metropolitan Medical Response System (MMRS) program, and Operation Stonegarden (OPSG). Together, these programs provide an integrated mechanism to enhance the coordination of National
Priority efforts to prevent, respond to, and recover from terrorist attacks, major disasters and other emergencies.

**Article IV – National Environmental Policy Act (NEPA)**

The recipient shall comply with all applicable Federal, State, and local environment and historic preservation (EHP) requirements and shall provide any information requested by FEMA to ensure compliance with applicable laws including: National Environmental Policy Act, National Historic Preservation Act, Endangered Species Act, and Executive Orders on Floodplains (11988), Wetlands (11990) and Environmental Justice (12898). Failure of the recipient to meet Federal, State, and local EHP requirements and obtain applicable permits may jeopardize Federal funding. Recipient shall not undertake any project having the potential to impact Environmental or Historical Preservation (EHP) resources without the prior approval of FEMA, including but not limited to communication towers, physical security enhancements, new construction, and modifications to buildings that are 50 years old or greater. Recipient must comply with all conditions placed on the project as the result of the EHP review. Any change to the approved project scope of work will require re-evaluation for compliance with these EHP requirements. If ground disturbing activities occur during project implementation, the recipient must ensure monitoring of ground disturbance, and if any potential archeological resources are discovered, the recipient will immediately cease construction in that area and notify FEMA and the appropriate State Historic Preservation Office. Any construction activities that have been initiated prior to the full EHP review could result in a non-compliance finding. For your convenience, here is the screening form link: (The Screening Form is available at: [www.fema.gov/doc/government/grant/bulletins/info329_final_screening_memo.doc](http://www.fema.gov/doc/government/grant/bulletins/info329_final_screening_memo.doc)). For these types of projects, grantees must complete the FEMA EHP Screening Form (OMB Number 1660-0115/FEMA Form 024-0-01) and submit it, will all supporting documentation, to their respective FDEM grant manager for review.
